

HO-950
8112 Washington Boulevard
Waterloo vicinity

Description:

The house at 8112 Washington Boulevard is a one-story, three-bay by two-bay frame structure, typically referred to as a Cape Cod, with stucco covering the walls and foundation, and a gable roof with asphalt shingles and a northwest-southeast ridge. The house faces northeast, is set well back from the road on a wooded lot, and has been severely vandalized. The northeast elevation has a center entrance with a modern deck in front of it, a one-over-one sash with a brick sill in the east bay and paired two-over-two sash in the north bay, with the stucco around it patched. The eaves are boxed. The northwest elevation has an exterior brick chimney on a CMU foundation in the north bay, with stuccoed-over small window openings on either side. The west bay has a boarded-up opening, and there is another in the gable end. The southeast elevation has two boarded-up window openings with brick sills, with a CMU and steel chimney between them and a window opening in the gable end. The southwest elevation has several non-historic additions with aluminum siding and shed roofs. The interior has an open stringer stair in the center that ascends to the northwest, with a partition on the southwest side of the stair. The east room has a fireplace on the northeast end, with a brick mantel. The walls are covered with paneling. There are also rooms in the south, west, and north corners.

Significance:

The house at 8112 Washington Boulevard is a standard Cape Cod probably constructed c. 1930-1950, typically as blue-color housing. Washington Boulevard (Route 1) became a state road in 1906 and was part of what was known as the "Main Street" of the East Coast after 1925, running from Key West, Florida to Fort Kent, Maine. It was always a location for transportation related businesses as well as suburban homes, and this trend seems to have increased after government funds were available to improve the quality of the road. This house fits within that pattern of development, but has been vandalized and has suffered some loss of historical integrity as a result. It was scheduled to be demolished in late 2007.
